

I. INTRODUCTION & PURPOSE

Green County recognizes that it may be the subject of one or more of a range of emergencies. Such emergencies can occur with little or no warning and can be the result of intentional or accidental circumstances. In order to minimize personal injury, loss of life, and damage to property or the environment, the Green County Emergency Management Agency has established this Green Emergency Response Plan (GCERP).

This Plan predetermines actions to be taken by the government agencies and private/public organizations of Green County to reduce the vulnerabilities of people and property to disaster and establish capabilities to respond effectively to the actual occurrence of an emergency. For the purposes of the GCERP, an emergency is defined as any unplanned, sudden, or accidental event that threatens health, property and/or the environment and requires specialized equipment and/or personnel to control. This document includes general and specific procedures that are to be used in the event of specific emergencies that may occur in Green County.

This plan addresses Green County's planned response to extraordinary emergency situations associated with natural disasters, technological incidents, and national security emergencies. The plan does not address normal day-to-day emergencies or the well-established and routine procedures used in coping with such emergencies. Instead, the operational concepts reflected in this plan focus on potential large-scale disasters, which can generate unique situations requiring unusual emergency responses.

Each section of the plan contains a purpose statement for that section. All individuals with assigned responsibilities should be familiar with the entire plan, however added emphasis must be given to those sections for which they are responsible. While all circumstances cannot be addressed, the content of this plan should be used as guide for those things that do occur but not specifically addressed herein.

Emergency response, like all governmental action, is based on legal authority. The GCERP is a support document to the State of Wisconsin ERP, and therefore follows State and Federal guidelines for conducting emergency planning, training, emergency response, and recovery. For Green County municipalities, departments, units, or areas of concern that have existing emergency plans, the GCERP serves as a supplement. Such plans should be reviewed for accuracy by the person(s) responsible for their maintenance, and then utilized to annually update relevant sections of the GCERP.

This plan is a preparedness document that is designed to be read, understood, and exercised prior to an emergency. It is a document that will be continually evolving. Recommendations for improvement are solicited and will be carefully considered for subsequent revisions. It is intended that this plan, when implemented, be used by the Green County response organizations to obtain maximum use of existing resources, organizations, and systems in their response to emergencies and disasters that could and/or have occurred in the county. The format utilized is:

Basic Plan: Defines the roles and responsibilities of key officials and their organizations.

Emergency Support Functions (ESF): Identifies the specific functions of the plan as well as the individual/agency responsible for the coordination of activities for that function.

A. Purpose of the Green County Emergency Response Plan (ERP):

The purpose of the ERP is to:

1. Provide advance planning, response procedures and helpful information, which can be utilized during an emergency to increase the speed and efficiency of response activity.
2. Facilitate the protection of lives, property and the environment in major disasters of any nature.
3. Coordinate response to disasters, assess damages, identify mitigation opportunities and implement recovery efforts.
4. Describe the county's relationship in support of local units of governments during response and recovery.
5. Serve as a coordinating document for supporting Internal Agency Plans (IAP) (i.e., Policy and Procedures.)
6. Update plans to reflect information collected, decisions made and procedures developed in the planning process and during response.
7. Provide a link between the county and municipal plans.
8. Provide policy for government officials, agency managers and emergency managers during a disaster situation.
9. Conform to the provisions of the National Incident Management System (NIMS) and the National Response Plan (NRP) to ensure a coordinated and effective response when federal agencies and assets are involved.

B. Purpose of the Basic Plan:

1. Provide a general overview for county and municipal emergency response personnel during response and recovery activities to disasters.

C. Scope

This Plan considers the emergencies and disasters likely to occur as described in the Green County Hazard Analysis and describes:

1. Functions and activities necessary to implement the four phases of emergency management – mitigation, preparedness, response and recovery.
2. Responsibilities in relation to federal disaster assistance programs under Homeland Security Presidential Directive-8 (HSPD-8), Public Law 100-97, as amended, State Statute Chapter 323 and other applicable laws, including county and local laws and ordinances.
3. Use of government, private sector and volunteer resources.

D. Organization

1. Emergency management in Green County is organized and operates in accordance with Green County Code; Chapter 13 Joint Action Emergency Management and State Chapter 323. Green County Emergency Management is responsible to prepare the county and its subdivisions to cope with emergencies resulting from enemy action and natural or man-made disasters.
2. Green County Emergency Management office is located at the Green County Sherriff's Office, 2827 6th St., Monroe, WI.
3. Green County issues a State of Emergency using the following process: When it is determined that the disaster is beyond the scope of local capabilities the Emergency Management Director may recommend to the highest elected official to issue a state of emergency. A state of emergency may also be issued if there is pre-notification (such as a winter storm) and indications are that the impending disaster is beyond local capabilities.
4. An Emergency Operations Center (EOC) is the primary location for coordinating the county emergency response and recovery activities. The Green County EOC is located at The Green County Sheriff's Office, 2827 6th St. Monroe, which is also the location of the emergency management office. In the event the emergency management office would be inoperable for an extended period of time, emergency operations may have to be relocated to an alternate EOC which would be determined at the time of the emergency.
5. Green County Emergency Management director and/or staff on call can be contacted by telephone or pager, Other government officials are contacted by telephone. Responders can be paged and most villages and cities also have warning sirens. The county 911 and communications center is located at the sheriff's office.
6. The Green County Emergency Response Plan (ERP) utilizes Emergency Support Functions (ESFs), consistent with the NRP, which identify sources for direct assistance, and operational support that the county and local jurisdictions may need in order to implement hazard mitigation and preparedness or respond and recover from an emergency or disaster. The County ERP consists of:
 - a. The County Basic Plan identifies policies and concepts of operations that guide the county's mitigation, preparedness, response, and recovery activities.
 - b. The ESFs describe the mission, policies, concepts of operation, and responsibilities of primary and support agencies involved in the implementation of activities.
 - c. The attachments which describe emergency management activities and provide additional details to the Basic Plan.

II. POLICIES

A. Authorities

This plan is developed, promulgated, and maintained pursuant to state statutes and county ordinances/regulations as outlined in Legal Basis page VI.

The concepts and processes developed in the NIMS, mandated by Homeland Security Presidential Directive (HSPD)-5, have been incorporated in the County Emergency Response Plan. NIMS provide a consistent nationwide system for all jurisdictions to work together effectively and efficiently to prepare for, respond to, and recover from domestic disaster or incidents.

B. Assignment of Responsibilities

1. This plan identifies the responsibilities of county agencies and other organizations, which are listed in attachment 3 of this plan.
2. ESFs establish mitigation, preparedness, response, and recovery activities. Primary responsibilities for each ESF are held by either one agency or joint agencies. Additionally, each ESF has supporting agencies that assist the Primary Agencies.

C. Limitations

The goal is to mitigate and prepare for the consequences of hazards, and respond and recover in the event of an emergency or disaster. However, county resources and systems may become overwhelmed in the event of a major incident.

III. SITUATION AND ASSUMPTIONS

A. Emergency/Disaster Conditions and Hazards

1. The identified hazards pose a threat, significant in frequency, magnitude or both, to the lives, property and/or environment in Green County.
2. The consequences of disasters could include major disruptions to normal functions.

IV. PLANNING ASSUMPTIONS

- A.** Per Wisconsin State Statute Chapter 323, county and municipal governments will appoint an emergency management director, develop and update emergency plans and participate in training and exercising. The Green County Emergency Management Agency is the coordinating agency.
- B.** Hazard specific planning documents may need to be used in conjunction with the ERP. These documents are listed in Attachment 2, Supporting Operations Plans and Documents.
- C.** County agencies are responsible for identifying emergency management personnel, developing and updating Standing Operating Procedures (SOPs) and providing maps of the county (Attachment 1.)
- D.** Emergency management in Wisconsin operates utilizing an all-hazards planning approach which includes mitigation, preparedness, response and recovery from major incidents.

- E. Governments have the legal and moral duty to protect the lives, property and environment within their jurisdictions.
- F. Local jurisdictions respond first to disaster through implementing municipal plans and can quickly exhaust resources, making outside assistance necessary. When such assistance is provided, local elected officials retain control over the response (s. 59.) Outside assistance, whether from another county, state, federal government or private sector, is delivered to support the local effort.
- G. It is necessary for Green County to plan for and to carry out disaster response and short-term recovery operations utilizing local resources; however, it is likely that outside assistance would be available in most major disaster situations affecting the County.
- H. Green County is responsible for requesting state disaster assistance for local governments. The state will request federal assistance if needed.
- I. The Incident Command System (ICS) will be used in disaster response. Unified command will be used in situations which affect multiple jurisdictions, multiple agencies within a jurisdiction and/or which require response by multiple levels of government. These command and control systems require the participation of the chief elected officials.

V. CONCEPT OF OPERATIONS

A. General

Many hazards pose a threat, significant in frequency, magnitude or both, to the lives, property and/or environment in Green County. Natural hazards include: tornadoes; downbursts and other violent storms; floods; ice storms; blizzards, drought and fires. Hazardous materials may be spilled contaminating the air, ground or water during transportation or at fixed locations, including radiological releases. Other hazards may be aircraft crashes, civil disturbances and terrorism. Refer to the Green County All Hazards Mitigation Plan – 2011 update for more in depth information on the hazards that may impact Green County. Other scenarios not readily identifiable may pose significant threats to the county as well.

Consequences of disasters could include, but are not limited to: mass casualties, disaster victims/responders psychological trauma, disruption of power, fuel, communications, water and other vital services. Homes, facilities, vehicles, other property and infrastructure may be damaged or destroyed. People, food, water, property or the environment may become contaminated. Looting and other disruption of law and order may occur. Government functions and economic and financial disruptions may also occur.

Local Green County governments have the responsibility to protect the life and property of their citizens from disasters. These units of government have the primary responsibility for emergency management activities, but when the emergency or disaster exceeds their capability to respond, assistance will be requested from the State government. The Federal government will provide assistance to the State, when appropriate. Although such assistance is provided, local elected officials still retain control over response (s. 59, 60, 61, and 62.) This Plan is based upon the concept that emergency functions for various groups involved in emergency management will generally parallel their normal day-to-day functions. To the extent possible, the same personnel and material resources will be employed in both cases. It is generally true, however, that a disaster is a situation in which the usual way of doing things no longer suffices. It is desirable, and always

attempted, to maintain organizational continuity and to assign familiar tasks to personnel. In large-scale disasters, however, it may be necessary to draw on people's basic capacities and to use them in areas of greatest need. Day-to-day functions that do not contribute directly to the emergency operation may be suspended for the duration of any emergency. Efforts that would normally be required of those functions will be redirected to accomplish the emergency task by the agency concerned.

Outlined below are the general responsibilities of county, state and federal governments as related to support to local emergency operations:

1. Local/county government.

- a. Under Chapter 323.14 the powers and duties of counties and municipalities are outlined.
- b. Local organizations or jurisdictions assign emergency or disaster responsibilities based upon existing capabilities or mutual aid agreements as provided in local emergency or disaster preparedness plans. All such plans should be consistent with this plan and Chapter 323.
- c. Local/County emergency response plans are grouped into ESFs. Each ESF is headed by Lead Coordinating Agency with one or more county agencies/organizations designated as support agencies based on their resources and capabilities to support the function. Each ESF has a counterpart state ESF, which it must coordinate with for the purpose of providing assistance under the WERP and serve as the mechanism through which state response assistance, is provided.
- d. In an emergency or disaster that may require state and federal assistance, local governments should communicate with each other and describe what response efforts are being conducted. Counties should provide situation reports and damage assessments to Wisconsin Emergency Management. Municipalities should make reports to their county EOC in accordance with the County Emergency Response Plan.
- e. Local/county government has primary responsibility to respond to disasters. To do this they:
 - (1) Manage the incident using their own resources and drawing additional resources from other town, municipal, county and non-governmental agencies.
 - (2) Notify State Emergency Management if State/Federal resources may be required.
 - (3) Maintain accurate records of disaster-related activities.
 - (4) Begin the damage assessment process.
 - (5) Assess the need for outside assistance.
 - (6) Coordinate through the county to obtain state assistance.
 - (7) Coordinate access to the disaster area.

- (8) Coordinate assistance in meeting the short-term needs of those affected (e.g., food, potable water, replacement medications, evacuation, shelter, etc.)
- f. Local/county government has primary responsibility to recover from disasters. To do this they:
 - (1) Determine recovery priorities and implementation strategies such as:
 - a) Restore essential services.
 - b) Assign personnel, obtain additional assistance and manage donated resources.
 - c) Coordinate access to the disaster area.
 - d) Coordinate restoration activities (i.e., re-entry).
 - e) Identify short- and long-term health/mental health impacts and determine how to address them.
 - f) Coordinate the evacuation and shelter of persons with special needs.
 - g) Address the long-term economic impacts of disaster.
 - (2) Continue with the damage assessment process.
 - (3) Identify potential mitigation projects.
 - (4) Make appropriate applications for federal disaster assistance and ensuring programs are administered according to guidelines.
 - (5) Coordinate assistance in meeting the short and long-term needs of those affected (e.g., food, housing, crisis counseling, etc.).

2. State Government

- a. Wisconsin Emergency Management (WEM) coordinates on behalf of the Governor or designee general control of state emergency operations, resources management, planning and policy. WEM coordinates state response in support of local jurisdictions as follows:
 - (1) Notify, through the state's 24-hour Duty Officer System, other agencies that might have primary responsibilities or that might be mobilized due to escalating response.
 - (2) Monitor events, update agencies and consult with the Governor and agencies as necessary.
 - (3) Implement SOPs.
 - (4) Notify the Federal Emergency Management Agency (FEMA) of the situation and the possible need for federal assistance.
 - (5) Maintain accurate records of disaster-related activities.

- (6) Begin the damage assessment process and as needed application process for federal disaster assistance.
- (7) Activate the EOC (staffed by state and private organization liaisons).
- (8) Issue situation reports to advise keys officials of response and recovery efforts.
- (9) Provide the coordination of information, decisions and resource management.
- (10) Recommend that the Governor declare a state of emergency and/or issue other orders.
- (11) Authorize the deployment of the Mobile Command Post (MCP) for on-site coordination of information and response actions.
- (12) Activate the Wisconsin Hazard Mitigation Team.
- (13) Conduct the internal and inter-agency after-action reviews of all phases of the disaster.
- (14) Coordinate the request and implement federal disaster assistance.
- (15) Incorporate the lessons learned into planning, training and exercising.
- (16) Coordinate state response among state agencies providing mutual aid from outside of the affected county.

b. State agency's priorities for recovery may include but are not limited to:

- (1) Coordinate the use of volunteer agencies between and among affected jurisdictions (e.g., counties, states and the federal government and volunteer/non-profit agencies.).
- (2) Implement the Memoranda of Understanding (MOU) (MOUs will be kept in the Wisconsin ERP under Attachment 8) between the American Red Cross and the:
 - State of Wisconsin
 - Wisconsin Department of Health Services
 - Wisconsin Department of Children and Families
 - Wisconsin National Guard
- (3) Coordinate mobilization and commit state agency resources.
- (4) Assist in restoring essential services.
- (5) Identify short- and long-term health/mental health impacts and determining how to address them.
- (6) Address the long-term economic impacts of disaster.
- (7) Identify potential mitigation projects.

- (8) Apply for appropriate federal disaster assistance and ensure programs are administered according to guidelines.
- c. State agency resources are grouped into ESFs. Each ESF is headed by a primary state agency, with one or more state agencies/organizations designated as support agencies based on their resources and capabilities to support the function. Each ESF has a counterpart federal ESF, which it must coordinate with for the purpose of providing assistance under the National Response Plan and serve as the mechanism through which federal response assistance is provided.

3. Federal Government

- a. The Federal Emergency Management Agency (FEMA) provides federal coordination, planning, training and funding to support state and local jurisdiction efforts.
- b. In the event that the capabilities of state government are exceeded, federal disaster or emergency assistance may be requested. FEMA coordinates federal response activities in accordance with the NRP and federal recovery assistance as prescribed in Public Law 100-707, as amended.
- c. Federal assistance can be provided to the State, or at the State's request, directly to the affected local jurisdiction. Initially, the Region V federal ESF representatives will work out of a Regional Operations Center (ROC) established at the FEMA Regional Office in Chicago. Once the Joint Field Office (JFO) is established, these representatives may relocate to the disaster site and work directly with their counterpart state agency representatives in the State EOC and/or JFO.
- d. Federal agencies use ESFs to support the state and local jurisdictions.
 - (1) ESF activities may be conducted at both the national and regional levels.
 - (2) During declared federal disasters, federal assistance is provided under the overall coordination of the Federal Coordinating Officer (FCO) appointed by the President.
 - (3) The point for coordination of Federal support to state and local organizations is the JFO.

B. Phases of Emergency Management

1. Mitigation Activities

Mitigation activities are any actions taken to reduce or eliminate long term risk to people, property, environment and the economy from natural and technological hazards. Examples of mitigation efforts include, but are not limited to:

- Building codes
- Disaster insurance
- Public education
- Procurement and integration of equipment
- Identifying resources

2. Preparedness Activities

Preparedness activities are any actions taken prior to the emergency that facilitate the implementation of a coordinated response. Exercises are conducted to identify deficiencies in plans and determine appropriate corrective action recommendations. Examples of preparedness efforts include, but are not limited to:

- Continuity of government decisions
- Testing and maintaining equipment
- Establishing, equipping and maintaining the EOC
- Developing emergency plans and procedures
- Participation in training, drills and exercises
- Coordination of sirens and Emergency Broadcast System utilization
- Hazard Identification

3. Response Activities

Response activities are any actions taken immediately before, during or directly after an emergency to save lives, minimize damage to property and increase the effectiveness of recovery efforts. Response activities include activation of warning systems, implementing plans, firefighting activities, rescue operations, evacuations and sheltering, etc.

4. Recovery Activities

Recovery is the phase that involves restoring systems to normal. Short-term recovery actions are taken to assess damage to restore vital and essential services to a community and provide for the individual needs of the public. Long term recovery, focuses on restoring the community as a whole to a normal or near-normal state. The recovery period is perfect opportunity to institute mitigation measures in an attempt to alleviate the effects of disasters that may occur in the future. Examples of recovery activities include the provision of shelter and food, restoration of utilities, restoration of government services, crisis counseling programs, and damage/disaster insurance, loans and grants..

C. Levels of Activation

Local governments and other state organizations will inform Wisconsin Emergency Management when disasters occur. Upon notification, Green County will initiate a graduated program of four response levels depending on the situation. Each level of response corresponds to the activation levels in the State Basic Plan. These levels are based on increasing levels of damage from minor to massive. During “fast-breaking” events, initial activation levels will be time-compressed and concurrent.

The activities listed under each level of activation are suggested guidelines for appropriate actions and staffing at that level. Actual activities and staffing will be determined by the Chief Elected Official or designee at the time of activation.

Level 4 Pre-Activation

- Initial reports of response activity received by Green County Emergency Management.
- Initial reports of scope of incident and early damage estimates.
- Situation report provided to Regional Director or State Duty Officer.
- Situation closed or Level 3 activated.

Level 3 Activation (Minor)

- Regional Director requests a Uniform Disaster Situation Report (UDSR).
- Partial activation of the EOC begins.
 - Emergency Management
 - Operations Section
 - Public Information
 - Chief Elected Officials
- Limited State resources requested (e.g. Regional Response Team, Bomb disposal unit).
- County/Local declaration of State of Emergency may occur.
- Regional Director on scene as State Liaison to County EOC
- Situation closed or escalation to Level 2.

Level 2 Activation (Moderate)

- Full activation of the County EOC
Operations, Planning, Logistics/Finance, Information, Intelligence and Command Staff
- State ESF counterparts are activated and liaison with county for resources.
- County/Local have declared a State of Emergency and requested federal assistance.
- Situation de-escalates and short-term recovery planning begins or escalation to Level 1.

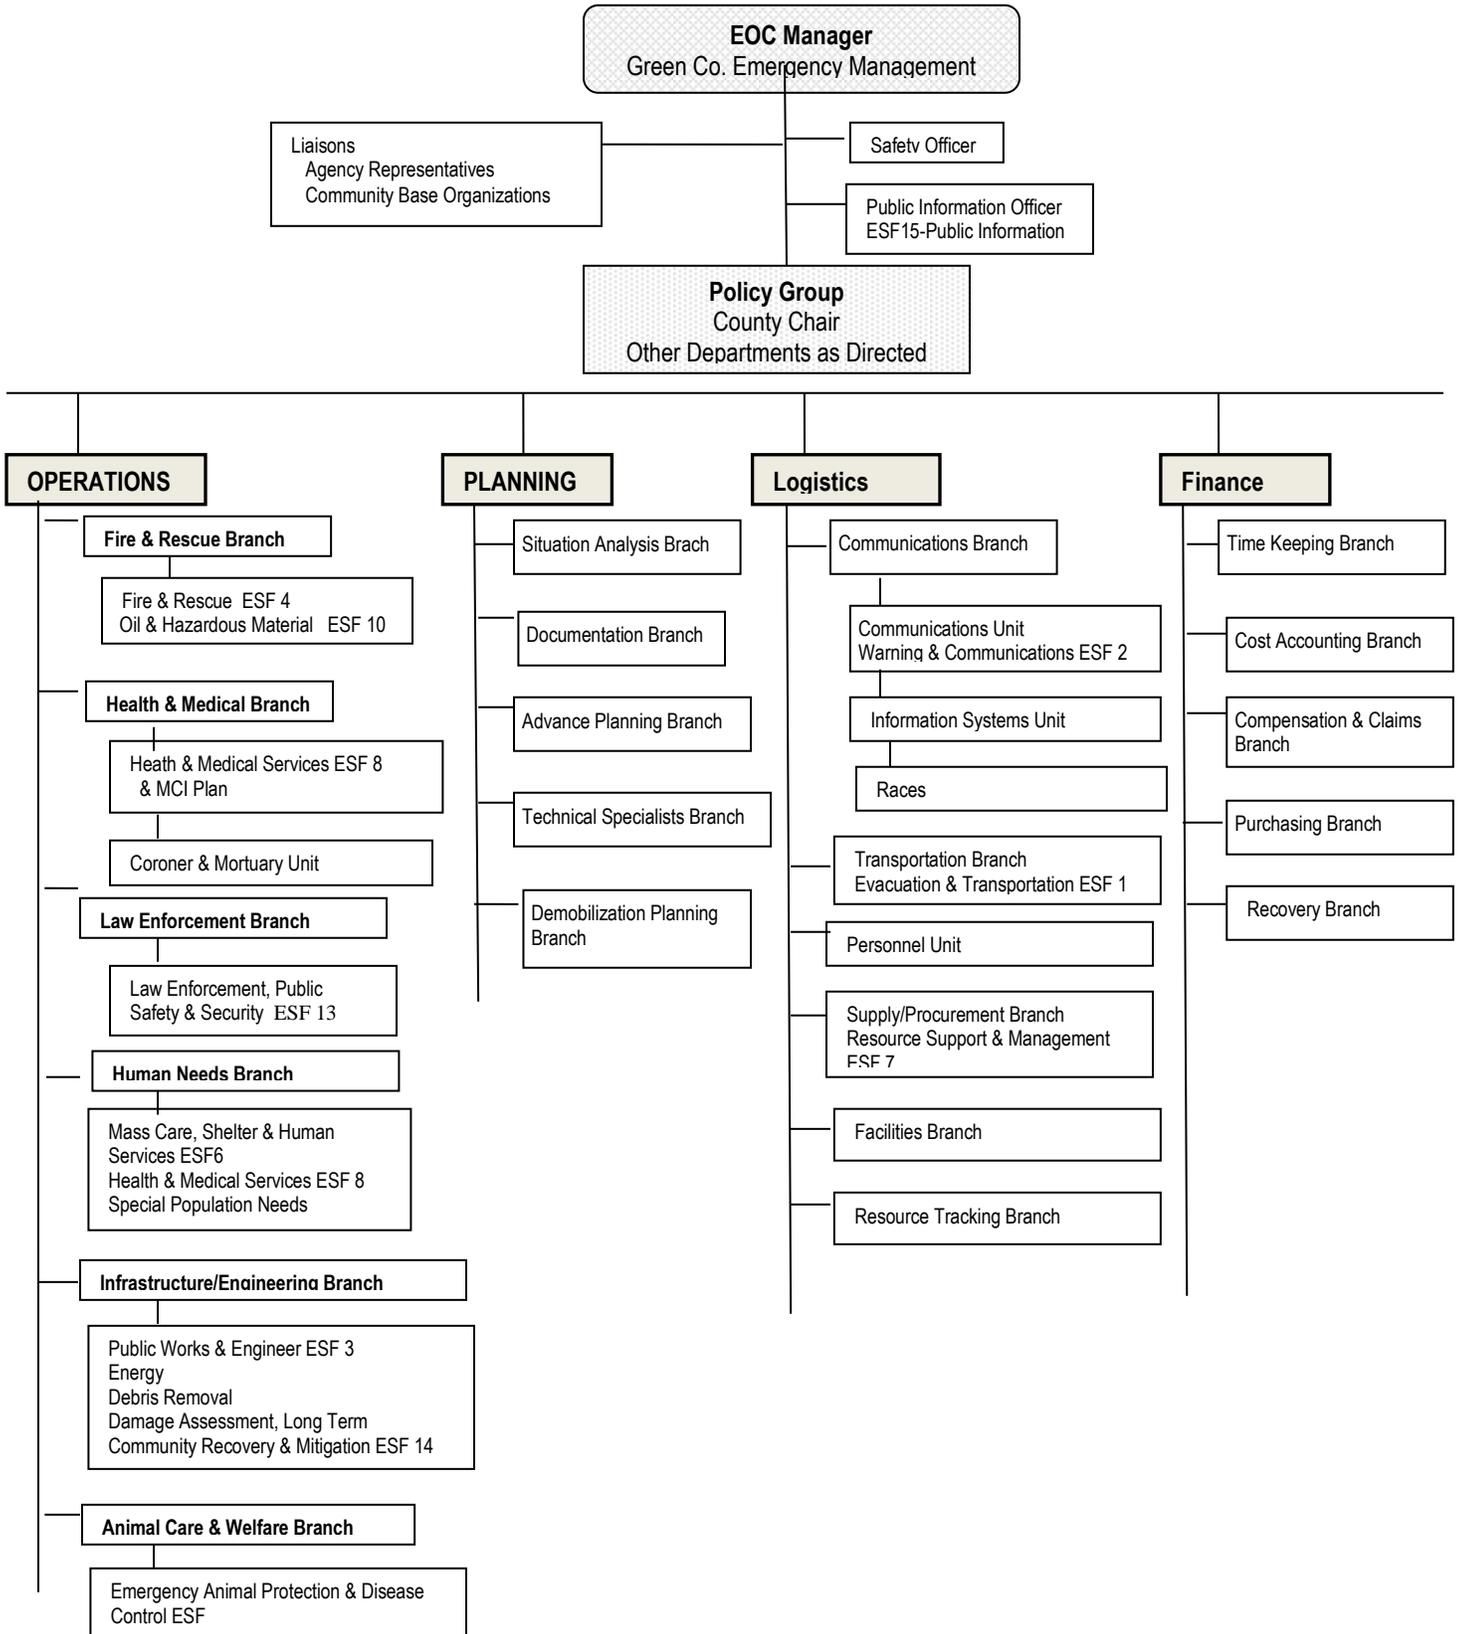

Level 1 Activation (Massive)

- State/Federal Declaration of State of Emergency.
- Expansion of county EOC to include state and/or federal ESF liaison.
- Deployment of State and/or Federal ESF assets.
- Prepare for long-term recovery operations.
- Begin preparation of demobilization plan for operational assets.

D. EOC Operations

During smaller emergencies, each agency (department) in county government performs its specialized tasks according to their agency's Standard Operating Procedures (SOPs). During major emergencies, however, there is an increased need for coordination of all activities relevant to the emergency response as they relate to the event as a whole. This operation takes place in the Green County EOC (See Attachment 6, County Emergency Operations Center).

The following chart diagrams the Green County EOC organization (see Chart 1).

VI. ORGANIZATION AND RESPONSIBILITIES

The County Emergency Response Plan establishes the following emergency support functions that contain the emergency assignments and responsibilities for each of the ESFs as detailed below:

VII. ORGANIZATION AND ASSIGNMENT OF RESPONSIBILITIES

The Green County EOP establishes the following ESFs that contain the emergency assignments and responsibilities for each of the ESF's as detailed below. In addition to the ESF's are: Direction and Control and the Basic Plan.

During the recovery phase, all agencies are expected to support continuing operations with equipment and staff as requested.

There are 15 ESFs that the WEM will require counties to develop. At the time of this update Green County has 15 ESFs completed, along with the basic plan and direction and control. The following is a listing of the completed ESFs and those that have not been developed yet. The ESFs that have not been developed will be completed when guidance is received from the state.

ESF #1 – Evacuation and Transportation Resources

The transportation function within the county emergency organization operates primarily as a coordinating group. This group insures all roads and conduits into and out of an affected area remain open, and that the traffic allowed into those areas is coordinated in a manner that prevents bottlenecking and gridlock, which would prevent needed emergency assistance reaching those areas that need it.

Lead Coordinating Agency:

Green County Sheriff's Office

Supporting Agencies:

Green County Highway Department
Municipal Public Works Departments
Green County Emergency Management
Green County Human Services
Green County Health Department
Fire Departments
EMS
Private Transportation Companies

State Agency:

Wisconsin Department of Transportation

Response

1. Support the needs of local government, voluntary organizations and other agencies requiring emergency transportation needs during an emergency or disaster.
2. Ensure that all roads, bridges and other corridors in and out of an affected area remain open.
3. Establish priorities for use of limited public transportation assets.
4. Recognize the four levels of evacuation and the resources needed to accomplish the evacuation.

ESF #2 - Warning & Communications

The Communications function is responsible for the development, maintenance, restoration and utilization of county, local and private sector communications assets during emergencies. This includes the radio systems owned and operated by county agencies, amateur radio networks, as well as the local and long-distance telephone systems connecting the federal, state, local and private sector resources that might be needed in an emergency

The Communications ESF is also responsible for the issuance of warning information regarding impending hazards, as well as the maintenance of warning networks which might be used by the county and local governments in an emergency (i.e., the conceptual networks—the actual networks themselves (e.g., radio equipment, etc.) are maintained by the Communications Systems function. This includes the EAS, NOAA Weather Radio system, NAWAS and other warning systems in place throughout the state.

Lead Coordinating Agencies:

Green County Communications Center (Green County Sheriff's Office)

Primary Agencies:

Municipal Communications Systems-
(Monroe Police Dept. & Brodhead Police Dept.)

Supporting Agencies:

Green County Emergency Management
Municipal Law Enforcement
WEKZ Radio Station – Monroe Office
TDS Telecom – Monroe Office
Green County Amateur Radio Association

Volunteer Agency:

Green County ARES/RACES (Amateur Radio Services)

State Support Agency:

Wisconsin Emergency Management

Federal Support Agencies

FEMA
National Weather Service

Response

1. Provide 24-hour capabilities to receive and disseminate reports and warnings of incidents to the public and emergency response personnel.
2. Disseminate and initiate warnings.
3. Promote communication operability
4. Support the Direction and Control function by linking agencies, jurisdictions, field sites and command facilities.
5. Coordinate the protection, restoration, and containment of local cyber and information technology infrastructure

ESF #3 - Public Works and Engineering

The Public Works and Engineering support function describes how the county will assist the municipalities with providing public works services; assessing the damage to infrastructure and buildings; debris removal, restoring and maintaining essential services and providing technical assistance through specialized personnel, equipment and supplies.

Lead Coordinating Agency:

Green County Highway Department

Primary Agency:

Municipal Public Works Departments

Supporting Agencies:

Green County Emergency Management

Green County Landfill

State Agencies:

Wisconsin Department of Transportation

Wisconsin Emergency Management

Private Agencies:

Private Utilities

Engineering Services

Railroads – Wisconsin and Southern RR

Response

1. Participate and assume appropriate role in the ICS/EOC.
2. Assess and report damage to infrastructure and waterways.
3. Coordinate the restoration and maintenance of essential services (i.e., electricity, fuel, water, gas, sewage disposal) to the affected area.
4. Clear or barricade roads, repair water and sewer systems and provide potable water supply and emergency lighting as needed.
5. Coordinate with Wisconsin Department of Natural Resources for debris removal and disposal.
6. Procure services from mutual aid, engineering and private contractors and coordinate their operations within the ICS/EOC.

Recovery

1. Assist with recovery activities and assessment of damage to those systems.
2. Demobilize and return resources to a state of readiness.

ESF #4 - Fire and Rescue

This ESF outlines the duties and responsibilities of local fire departments in fire prevention, fire detection and suppression. EMT services, decontamination operations and other fire departments.

Lead Coordinating Agencies:

Fire Departments

Wisconsin Department of Natural Resources (Wildland Fire)

Supporting Agencies:

United States Forestry Service

United States Parks Service

Volunteer Agencies:

American Red Cross

Salvation Army

State Supporting Agencies:

Wisconsin Emergency Management
Wisconsin State Fire Chief's Association
MABAS Executive Board of Directors

Response

1. Coordinate and conduct firefighting activities on local/state lands.
2. Participate and assume appropriate role in the ICS/EOC.
3. Mobilize and coordinate county resources to assist local fire departments.
4. Support hazardous materials teams and decontamination operations.
5. Provide advice and assistance regarding fire suppression and search and rescue operations.

Recovery

1. Assist with re-entry activities with local law enforcement
2. Demobilize and return resources to a state of readiness.

ESF #5 – Emergency Management

The purpose of Emergency Support Function (ESF) 5 is to collect, analyze, and share information about a potential or actual emergency or disaster to enhance the response and recovery activities of the county. ESF # 5 is most applicable to the county and local agencies and volunteer organizations that commonly report to the EOC during activation.

Lead Coordinating Agencies:

Green County Emergency Management

Supporting Agencies:

Green County Sheriff's Office
Municipal Police Departments
Green County Highway Department
Municipal Public Works Departments
Green County Health Department
Green County Human Services
Fire Departments
EMS

Volunteer Agencies

American Red Cross
Salvation Army
Green County ARES/RACES (Amateur Radio Services)

Other Public and Private Agency:

Southwest Wisconsin Incident Management Team (SW-IMT)

Response

1. Activate the County EOC and staff as necessary
2. Collect, verify, analyze, and disseminate incident information as needed.
3. Coordinate mutual aid activities including private organization assets.
4. Facilitate planning meetings to develop Incident Action Plans, and situation reports as needed.

Recovery

1. Collect and process information concerning recovery activities while the response phase of the disaster is ongoing.
2. Continue coordination with state and federal assets to support local jurisdictions supplemental emergency or disaster assistance.
3. Disseminate recovery information, plans and reports.

ESF #6 Mass Care, Sheltering and Human Services

Lead Coordinating Agencies:

Green County Health Department

Green County Human Services

Primary Agencies:

American Red Cross South Central Wisconsin Chapter

Supporting Agencies:

Green County Emergency Management

Green County Sheriff's Office

Municipal Police Departments

Green County Highway Department

Municipal Public Works Departments

EMS

Fire Departments

Volunteer Agencies

CISM Teams (Critical Incident Stress Management) Clergy

Salvation Army

Volunteers

Clergy

Response

1. Participate and assume appropriate role in the ICS/EOC.
2. Assess the incident and the need to evacuate or shelter in-place.
3. Coordinate with ESF#1, 2 and ESF#15 to implement procedures for public warning, traffic re-routing, and evacuation and shelter operations.
4. Identify and request special resources needed for evacuation and sheltering operations.
5. Disseminate public information announcements and warnings regarding evacuation and sheltering, including pet and livestock issues.
6. Coordinate the activities regarding evacuation, shelter and human services functions including persons with special needs (e.g., mass feeding, registration of victims and families, shelter operation, emergency financial aid, mental health and stress management support to victims and responders.)

Recovery

1. Collect vital statistics and identify potential or actual continuing hazards affecting public health and offer appropriate guidance for mitigation and harmful effects in accordance with ESF#8 and report to appropriate local, State, and Federal authorities.
2. Determine the appropriateness of re-entry and implement re-entry activities.
3. Assist evacuees in returning to their homes and address temporary and long-term housing needs.

ESF #7 – Resource Support and Management

Lead Coordinating Agency:

Green County Emergency Management

Supporting Agencies:

Green County Sheriff's Office

Municipal Police Departments

Green County Highway Department

Municipal Public Works Departments

Green County Accounting Office

Green County Clerk's Office

Green County Corporation Counsel

Response

1. Identify and coordinate public and donated resources (i.e., personnel, facilities, equipment, supplies) in support of local operations.
2. Track resources used during operations.
3. Coordinate volunteer agency activities.

Recovery

1. Identify and release resources from service when no longer needed.
2. Coordinate returning to pre-disaster status and replenish resources.

ESF #8 - Health and Medical Services

Lead Coordinating Agency:

Green County Health Department

Primary Agencies:

Green County Coroner's Office

Monroe Clinic

EMS

Supporting Agencies:

Green County Emergency Management

Green County Sheriff's Office

Municipal Police Departments

Fire Departments

Green County Highway Department

Municipal Public Works Departments

Green County Human Services

Beloit Memorial Stateline Regional CISD Team
Green County Chaplains
Local Pharmacies
Local Funeral Homes

Volunteer Agencies:

American Red Cross
Salvation Army
Volunteers
Medical Reserve Corp.

State Agencies:

Wisconsin Department of Health Services (DHS)
Wisconsin Emergency Management
Wisconsin Department of Agriculture, Trade and Consumer Protection (DATCP)

Response

1. Participate and assume appropriate role in the ICS/EOC.
2. Coordinate and provide leadership in the activities of Public Health, Emergency Medical response, and mortuary services.
3. Provide triage, transportation, and emergency and non-emergency medical treatment to victims, including isolation and decontamination activities.
4. Issue health and medical advisories to the public and emergency responders in accordance with ESF#5.
5. Assist with shelter operations/rehabilitation sites and the recording and registration of victims and in accordance with ESF #7.
6. Procure mutual aid resources for medical/health/mortuary supplies, equipment and personnel.
7. Coordinate the response and the activities regarding public health functions for hazardous materials/radiological hazards, infectious and communicable disease, safety of food and drugs, vaccinations, medical/mental health and crisis counseling for victims, responders and persons with special needs, vector control, potable water/wastewater/solid waste, and inspections/damage assessments for contamination and health hazards.
8. Coordinate with the Wisconsin Department of Health Services.

Recovery

1. Assist with re-entry activities.
2. Collect vital statistics and identify potential or actual continuing hazards affecting public health and offer appropriate guidance for mitigation and long-term health effects and report to appropriate local, State, and Federal authorities.

ESF #9 – Urban Search and Rescue

This group coordinates the state assistance in locating persons missing as a result of any one or more of a number of reasons. This includes urban search and rescue problems generated as a result of persons lost in wooded or other environments, the search for downed aircraft, the extrication of accident victims, collapsed structures, etc. This group also provides the interface with the federal Urban Search and Rescue Teams.

Lead Coordinating Agencies:

Green County Sheriff's Office
Municipal Police Departments

Support Agencies:

Green County Emergency Management
Fire Departments

State Agencies:

Wisconsin Emergency Management
Wisconsin Department of Military Affairs
Wisconsin Regional Urban Search and Rescue Task Force Team
Wisconsin Department of Transportation
Wisconsin State Patrol
Wisconsin Fire Chief's Association
Wisconsin DNR

Federal Agencies:

FEMA Urban Search and Rescue Task Force Team

Other Private & Public Sector Agencies:

Wisconsin Civil Air Patrol
Southwest Wisconsin Incident Management Team (SW-IMT)

Response

1. Provide coordination and support in both urban and rural search and rescue operations prior to and following an emergency or disaster situation.

Recovery

1. After search and recovery missions are completed first federal, then state, and mutual aid assets are released.
2. Local assets will be released with the event is fully terminated.

3. **ESF #10 – Oil and Hazardous Materials**

This function is responsible for the identification of, training on and response to hazardous substances or materials in the jurisdiction.

Lead Coordinating Agency

Fire Departments

Support Agencies:

Green County Emergency Management
Green County Sheriff's Office
Municipal Police Departments
EMS
Green County Highway Department
Municipal Public Works Departments
Green County Health Department
Regional Level A and B Hazmat Teams

State Agencies

Wisconsin Department of Natural Resources (DNR)
Wisconsin Department of Agriculture, Trade and Consumer Protection (DATCP)
Wisconsin Department of Health Services (DHS)

Response

1. Response to a fire at a facility with known existing hazmat, emergency responders will assume involvement with hazardous materials unless otherwise advised, or determined.
2. Take measure to protect the public and the safety of responders.

3. Responders will operate only in capacity of their training. Mutual aid jurisdictions, Regional hazmat teams, Dept. of Health and family services and Wisconsin Emergency Management will be called as appropriate.

Recovery

1. Coordinated decontamination and other clean-up efforts as necessary.
2. Ensure personnel have been decontaminated, when applicable.
3. If the public was evacuated, develop a reentry plan and ensure their safety.

ESF #11 – Agriculture and Natural Resources

ESF #11 provides for a coordinated response to incidents involving the agricultural community, including crops, livestock, food supplies, other related agricultural concerns and natural resources.

Lead Coordinating Agencies:

Green County Public Health Department
Green County UW-Extension

Support Agencies:

Green County Emergency Management
Green County Sheriff's Office
Municipal Police Departments
Fire Departments
EMS

Green County Human Services
Green County Highway Department
Green County Land Conservation

Volunteer Agencies:

American Red Cross
Salvation Army
Wisconsin Animal Response Corp (WARC)
Humane Society

State Agencies:

Wisconsin Department of Natural Resources
Wisconsin Department of Agriculture, Trade, and Consumer Protection

Federal Agencies:

United States Department of Agriculture

Response

1. Control and eradicate or manage foreign animal diseases (including infectious, non-infectious and zoonotic diseases)
2. Control and eradicate or manage exotic plant diseases.
3. Control and eradicate or manage exotic pest infestations.
4. Provision of nutrition assistance, determining assistance needs and deliver of supplies.
5. Protect natural resources prior to, and after a disaster

Recovery

1. Continue with the coordination and monitor the management of plant and animal disease and pest infestations, food safety and natural resources.
2. Manage volunteer service response activities
3. Continue to coordinate services to farmers affected by the incident through the Farm Center Hotline and Farm Center Staff and county services i.e. human services.

ESF #12 – Energy

ESF #12 Coordinates the activities of energy and utility organizations responding to and recovering from fuel shortages, power outages, and capacity shortages during an emergency or disaster. It provides the coordination activities to meet essential needs and use of available electric power, natural gas and petroleum products.

Lead Coordinating Agency:

Green County Emergency Management

Primary Agencies:

Municipal Public Works and Utilities

Including New Glarus Light and Water Department
Brodhead Water and Light Commission

Support Agencies

Green County Sheriff's Office

Municipal Police Departments

Green County Highway Department

Green County Public Health Department

Commercial Energy/Fuel Providers

Alliant Energy

Wisconsin Natural Gas-WE Energies

Northern Natural Gas

Enterprise/MidAmerican Pipeline

Energy Industry Organizations

Midwest Reliability Organizations

American Transmission Company

Midwest Independent Transmission Operators

Private Fuel Providers

Response

1. Estimation and damage assessment compiled by local and the energy, utility and transportation companies affected by the emergency.
2. Close coordination with emergency responders and utility companies to maintain and plan for adequate fuel supplies and locate alternate supplies if local reserves may become depleted.

Recovery

1. Update damage assessment and operational capacity as needed.
2. If adequate energy resources are not available to meet essential needs, prioritize these resources under State Statute 323.10.

3. Coordinate with local, county and state agencies to coordinate targeted energy conservation and develop and long term recovery plan.

ESF #13 – Law Enforcement, Public Safety and Security

Public Safety and Security integrates County and local law enforcement capabilities and resources to support the range of incident management activities associated with major incidents within the county/local jurisdiction. It provides the means for providing assets in support of incident management, force and critical infrastructure protection and public safety.

Lead Coordinating Agencies:

Green County Sheriff's Office
Municipal Police Departments

Supporting Agencies:

Green County Emergency Management
Green County Highway Department
Municipal Public Works Departments

State Agencies:

Wisconsin Emergency Management
Wisconsin State Patrol
Wisconsin Department of Corrections
Wisconsin Department of Justice (DOJ)
Wisconsin Department of Military Affairs (DMA)
Wisconsin Department of Natural Resources (DNR)
Wisconsin Department of Transportation (DOT)

Federal Agencies:

United States Department of Homeland Security
United States Federal Bureau of Investigation (FBI)
United States Department of Justice

Response

1. Participate and assume appropriate role in the ICS/EOC.
2. Assist local law enforcement with maintaining security and control access to the site of the disaster, EOCs, temporary morgue sites and other facilities. Assist with controlling traffic and crowds.
3. Coordinate with local agencies for the establishment of a perimeter around the evacuated area and a pass system for emergency response personnel and resources.
4. Coordinate with local law enforcement to conduct warning, evacuations, search and rescue, identification of victims and shelter operations.
5. Obtain special resources and services (e.g., bomb squad, Wisconsin Police Services, Civil Support Team, hostage negotiators, laboratory facilities).

Recovery

1. Coordinate re-entry activities with local law enforcement.
2. Demobilize and return resources to a state of readiness.

ESF #14 – Disaster Assessment, Long-term Community Recovery and Mitigation

This ESF will be divided into the following two sub functions:

1. Assistance Programs

This sub function is the mechanism through which the county receives and coordinates state and federal disaster relief assistance to victims in the affected areas. Assistance could include the Individual & Households Program, the Small Business Administration's loan programs, the administration of unemployment compensation, and various other disaster relief programs available for both Presidential declared and non-Presidential declared disasters.

2. Recovery and Reconstruction Programs

This sub function addresses the long-term economic and psychological impact of disasters upon local communities and assists the communities in developing plans and processes for reconstruction. To assist individuals, long-term recovery processes are implemented. This may include working with donations, identifying volunteers and compiling a resource list. It may also include management of crisis counseling grants. Grant and low-interest loan programs are identified and targeted for application by the community. Significant attention is given to the mitigation of future potential hazards when developing local recovery plans.

Lead Coordinating Agencies:

Green County Emergency Management

Supporting Agencies:

Green County Sheriff's Office

Green County Clerk's Office

Green County Treasurer's Office

Municipal Police Departments

Fire Departments

Green County Highway Department

Municipal Public Works Departments

Volunteer Agencies:

American Red Cross

Wisconsin VOAD (Volunteer Organizations Active in Disasters)

State Agency:

Wisconsin Emergency Management

Federal Agency:

FEMA

Response

1. Activate the Green County disaster assessment process.
2. Report the extent of involvement, estimate damages and gather information regarding the disaster's impact on the public and private sectors.
3. Submit Uniform Disaster Situation Report (UDSR) to WEM within 24 hours and update as needed.
4. Receive and disseminate information to decision makers to prioritize recovery efforts and determine the need for state or federal assistance.

Recovery

1. Assist with the Preliminary Damage Assessment and disaster declaration processes as requested.
2. Identify available grant and low interest programs
3. Assist municipalities applying for public assistance if available
4. Provide ongoing financial documentation
5. Assist with mitigation activities

ESF #15 – Public Information (External Affairs)

This ESF is responsible for the provision of information (both general and that which conveys emergency instructions to the public) concerning an actual or impending disaster. The coordination of Joint Public Information activities and the distribution of emergency preparedness instructions through other means are addressed in this function.

Lead Coordinating Agency:

Green County Emergency Management

Supporting Agencies:

Green County Sheriff's Office

Municipal Police Departments

Elected Officials

State Agencies:

Wisconsin Emergency Management

Other State Agencies as needed for the disaster

Federal Agencies:

United States Department of Homeland Security

Response

1. Maintain liaison with EOC and field command post.
2. Convene emergency public information staff, coordinate information between officials and the news media and implement rumor control.
3. Obtain information and when authorized, release information to the news media thru the proper channels (e.g., local media, EAS, newspapers.)
4. Establish and maintain a joint public information center to ensure coordinated public information during emergency operations.
5. Disseminate instructions to the public regarding protective action recommendations.
6. Provide consumer protection information to the public.
7. Assess the public affairs implications and support public officials with the dissemination of emergency protective actions.

Recovery

1. Continue coordinating and disseminating information to the public and media.

ESF #16 - Radiological Protection

Lead Coordinating Agency:

Green County Emergency Management

Primary Agency:

Green County Health Department

Support Agency:

Green County Sheriff's Office

Municipal Police Departments

Fire Departments

EMS

Green County Highway Department

Municipal Public Works Departments

Green County UW-Extension

State Primary Agencies:

Wisconsin Emergency Management

Wisconsin Department of Health – Radiation Protection Section

State Supporting Agencies:

Wisconsin Department of Natural Resources

Wisconsin Department of Agriculture, Trade, and Consumer Protection

Wisconsin Department of Transportation

Wisconsin Department of Military Affairs

Wisconsin Department of Justice

Federal Primary Agencies:

Department of Homeland Security/FEMA

Nuclear Regulatory Commission

Federal Support Agencies:

United States Department of Energy

United States Environmental Protection Agency (EPA)

United States Department of Health and Human Services

United States Department of Agriculture

United States Center of Disease Control

United States National Aeronautics and Space Administration

Private Agency:

Byron Nuclear Generating Station

Response

1. Set up a perimeter around the facility or spill and enact an access control system.
2. Report the incident to the WEM Duty Officer or the Wisconsin Department of Health Services – Radiation Protection Section – DHS/RPS.
3. Document all personnel who might have been exposed to radiation or radioactive contamination.
4. Collect shipping papers and contact facilities' representatives for more information regarding material involved and relate to WI DHS/RPS.
5. Provide emergency medical care to victim(s).

ESF #18 - Weapons of Mass Destruction/Terrorism

Lead Coordinating Agencies

Green County Sheriff's Office
Municipal Police Departments

Support Agencies

Fire Departments
EMS
Green County Human Services
The Monroe Clinic Hospital
Green County Coroner
Green County Highway Department
Municipal Public Works Departments
Green County Emergency Management
Green County Public Health Department

Volunteer Agency:

American Red Cross

Response

1. Respond to all threats or acts of terrorism within Green County with first priority for public safety and the preservation of life and property.
2. Evidence of a terrorist act may not be determined until days weeks, or months after the event has occurred.

VIII. PLAN DEVELOPMENT AND MAINTENANCE

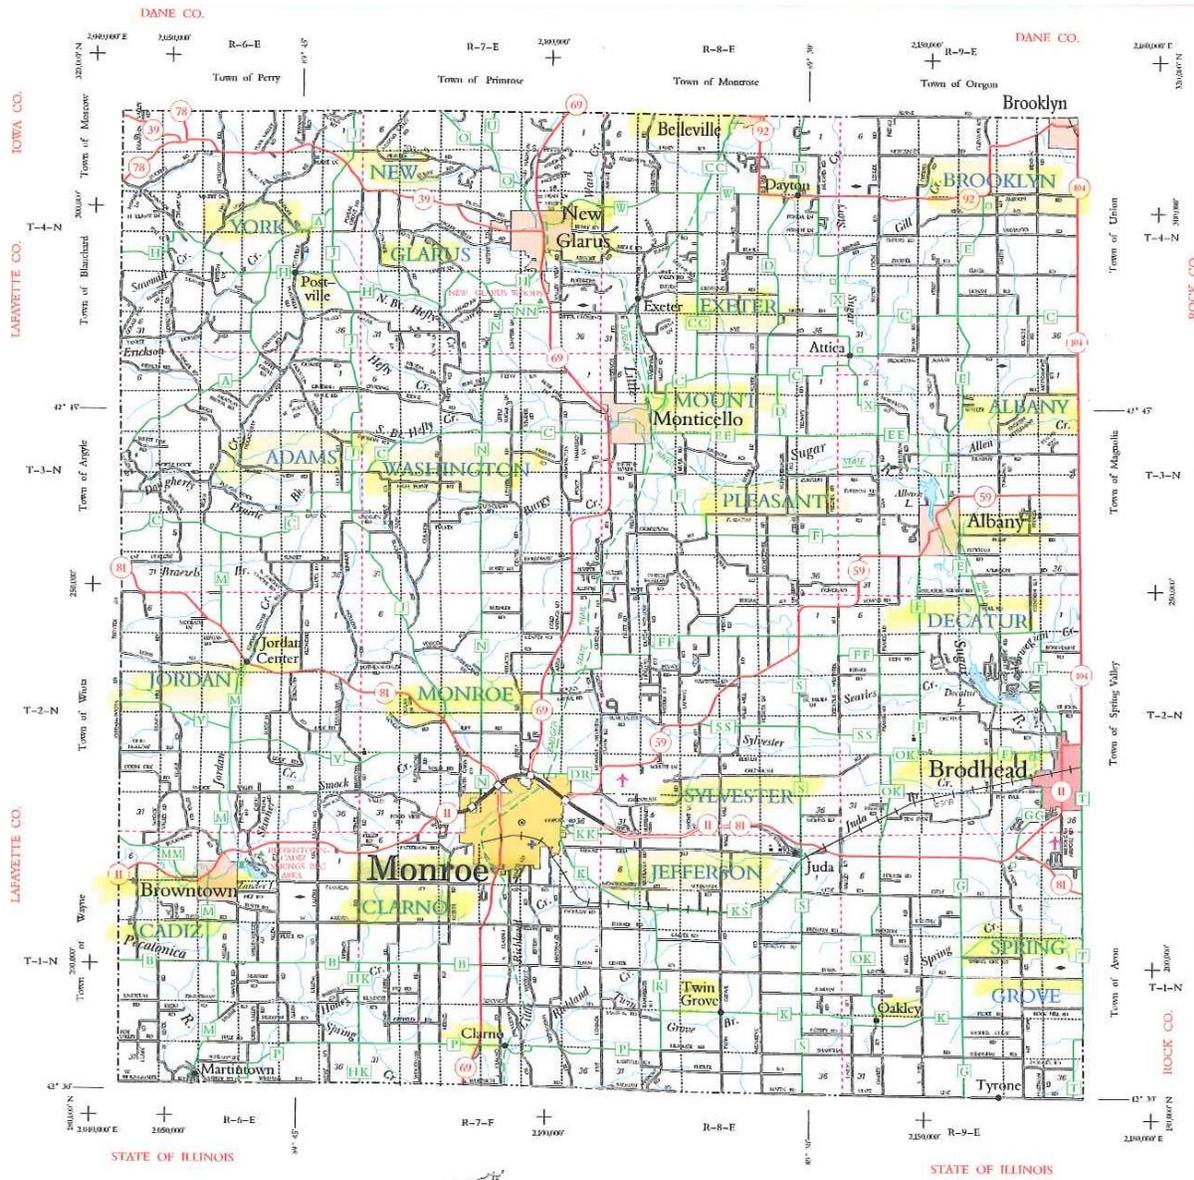

The Green County Emergency Management Agency is the lead agency and has the overall authority and responsibility for the development and maintenance of the GCERP.

In carrying out this responsibility, agencies receiving copies of this plan, which may be lead, primary or supporting agency must review the plans and develop their own plans to support the GCERP. These agencies are encouraged to assist the Green County Emergency Management office in the development of new or updated plans.

The Green County Emergency Management office shall annually review and distribute copies of the GCERP in accordance with Attachment 4 of the Basic Plan. In addition, the GCERP will be updated annually or amended when deemed necessary. Updates shall include all supporting documents and will be amended to reflect statutory and policy changes or lessons learned through drills, exercises or actual disasters.

The Green County Emergency Management office shall distribute revisions to the plan to all parties that hold copies of the plan. Parties receiving plans shall acknowledge receipt of the revised plan by returning the signature page to the Green County Emergency Management Director.
